Calculated Measures Webinar Series

1

**Understanding
formulas and Pivot
Tables for Calculated
measures in
ActivityInfo**

July 26

2

**Discover the power of
Calculated measures
in ActivityInfo**

Aug 2

3

**Unleashing data
insights - Office hour
session on Calculated
measures in
ActivityInfo**

Aug 9

Presentation outline

Overview

- Refresher on calculated measures
- Addressing FAQ on calculated measures in ActivityInfo
- Q&A
- Feedback

Familiarity with Calculated Measures

How familiar are you with the concept of calculated measures?

A. Very Familiar

B. Somewhat Familiar

C. Not Familiar

Confidence Level in Using Calculated Measures

How confident do you feel about using calculated measures in data analysis?

- A. Very Confident
- B. Somewhat Confident
- C. Not Confident

Refresher on Calculated Measures

Tips

- Choose a form or use table functions, ensuring you include all relevant inputs for your calculated measure.
- Understand how data elements relate and contribute to your analysis
- Remember that calculated measures extend beyond individual rows or fields, providing broader insights.
- Remember that basic formula understanding enhances effective use of calculated measures.
- Remember to Identify specific insights to guide your calculated measure design

Q&A

Frequently Asked Questions

Can I refer to existing pivot table reports in my calculated measure?

- Short Answer: No.
- Workarounds:
 - Refer directly to each form containing the data you would like to analyze
 - Use a table function to create the table you need
 - Export the data into a 3rd party system for further analysis

Frequently Asked Questions

Can I use calculated measures in my forms?

- Short Answer: No.
- Options: Noted for future considerations

Frequently Asked Questions

Can I refer to forms in other databases in my calculated measure?

- Yes, by explicitly including those in your data sources.

Frequently Asked Questions

Can I refer to fields in referenced forms in my calculated measure?

- Short Answer: Not directly.
- Work Around: You would need to pull that field into your current form using a Calculated Field.

Frequently Asked Questions

Suggested Features for Calculated Measures?

- Stay tuned for updates on new functions that we will release.
